#### Notes:

- |   |  |        |  |
|---|--|--------|--|
| 1. Review latest version of Sector Scheme document version: |  | Dated: |  |
| 2. Review latest version of Registration Handbook version:  |  | Dated: |  |
| 3. Review latest version of Training Specification version: |  | Dated: |  |
4. List all relevant H&S legislation and implementation date since last review
  5. List any other relevant legislation and implementation date since last review
  6. List all relevant guidance / standards & implementation date since last review
  7. List any new materials / equipment requiring information, instruction, training
  8. List any new processes requiring information, instruction, training
  9. Ensure a written procedure exists for this within the organisation. An example of how you might do this is to assess the portfolio & card authorisation application, cross-checking the individual's role / tasks against current and latest issue of HERS Handbook to identify additional or redundant tasks; discuss with Qualified Supervisor, supervisor and / or individual

(Don't forget to check the impact of all the above on H&S policy, risk assessments, method statements etc.)
