Relevant details of the work carried out and the faults identified have been entered in the system log book ☐

During the past 12 months false alarms have occurred

The above number of false alarms equates to per 100 automatic fire detections per annum.

For type M systems, enter N/A.

NOTES:

Installation of new devices + existing devices re-connected to Unit 10 Fire Alarm panel as per quote 135/PU/2023

Unit 8 Fire Alarm panel disconnected as not required anymore.

Units 8, 9 + 10 all part of same system, Panel located in Unit 10

- HE Woolley Ltd is not responsible for any installation or alteration made by others at any time to any equipment included in this certificate. The certificate is subject to our conditions of sale, copies of which are available upon request.
- It is the client's responsibility to ensure that a weekly test of the alarm system and a monthly check of the emergency lights are performed by the nominated fire/safety officer in order to ensure correct operation. The system log book should be completed accordingly.
