Emergency Lighting Periodic Inspection and Test

Customer <u>Intrator</u>	Date <u>5/4/24</u>
Address <u>Units 8-9 Easter Park, Barton Road</u> <u>Riverside Ind Est, Middlesbrough TS2 1RY</u>	Order No.
Invoice Address if different from above	Account Ref.
	Invoice No.

I/we hereby certify that the emergency lighting installation at the above premises has been inspected/tested by me/us in accordance with the schedule below, and to the best of my/our knowledge and belief with BS 5266-1:2011, except for the variations, if any, stated in this certificate.

Annual Inspection and Test ☐ 1 Hour Burn ☐ 3 Hour Burn ☐ Remedial Work ☒

RESULTS OF EMERGENCY LIGHT SERVICE		Yes	No
Regular test results logged		✓	
Installation in a satisfactory condition		✓	
Central battery system			✓
Self-contained luminaires and signs		✓	
Devices operate on mains failure		✓	
Maintained devices		✓	
Non-maintained devices		✓	
Defective devices			✓
REMEDIAL WORK / PARTS SUPPLIED & FITTED		Quantity	
Twin Spot Light		2	
Bulkhead Light		2	
Battery LED SPOTLIGHT		1	
8w Tube			

NOTE: Because of the possibility of failure of the supply to the normal lighting occurring shortly after a period of testing, all tests should be undertaken at times of minimal risk. Alternatively, suitable temporary arrangements should be made until the batteries are recharged.

Comments and Variations, if any, from BS 5266-1:2011

Installation + replacement of emergency lights as per quote 016/24/24
